Fixture weight: 491 grams

## FIXTURE VARIATIONS

| LED module        | Lumen  | Light colour                | Efficiency (Lm/W) | Power | Dim options            |
|-------------------|--------|-----------------------------|-------------------|-------|------------------------|
| Bridgelux V10 LED | 1100lm | 927                         | 83                | 15.0W | Triac / DALI / Casambi |
| Bridgelux V10 LED | 1100lm | 930                         | 87                | 15.0W | Triac / DALI / Casambi |
| Bridgelux V10 LED | 1100lm | Dim to Warm • 2000K - 3000K | 87                | 15.0W | Triac / DALI / Casambi |

Fixture variations:

- <sup>1)</sup> Lumen output of LED module (COB) is displayed as net lumen and is subject to 10% tolerance of real time light output (set by international standards)
- <sup>2)</sup> Colour temperature notation is composed of CRI value, indicated by the first digit, and CCT in Kelvin, indicated by the following 2 digits. Accuracy of the Correlated Colour Temperature (CCT) is subject to a tolerance of up to +/- 150 Kelvin compared to nominal value.
- <sup>3)</sup> Fixture efficiency is displayed in lumens per watt and is calculated based on the gross lumen output and power consumption of both the LED module and driver
- <sup>4)</sup> Mentioned wattage applies for the total power consumption of the fixture, including both LED module and driver.

Technical data can be changed by Internova Professional Lighting without prior notice.
