

COSTAS is a collection of lights designed by Alex&Manel Lluscà, which is characterised by its rattan shades. Available in two measurements, the design leaves the bulb visible, in a mix of minimalist and Mediterranean style. It is designed for the indoor lighting of any kind of space, but especially for the contract sector. This is the 40 cm diameter and 7 cm high version. COSTAS allows you to create islands on the ceiling and on the wall. We recommend combining it with the decorative bulb Ref. 17071E. Lighting solutions designed for global markets, compatible with mains voltages: 110 - 120V and 220 - 240V.
